AWS Solutions Architect – Associate

"Passionate about computer science, I design robust software solutions and architectures, putting technology, including AI, at the service of business goals. Curious and adaptable, I enjoy exploring new technologies, supporting my team and fostering a collaborative environment."

PROFESSIONAL EXPERIENCE

NOV 2023 – DEC 2026 (PERMANENT)

Transneg, Santo Domingo
Senior Developer ⟶ Team Lead

Software vendor for billing, payment, insurance and business process automation solutions.

- Notable projects: design and development of a generic, regulation-compliant insurance core, and of a BPMN 2.0-compliant BPM engine deployed in the country's main city halls.
- Led a team of developers.
- Scoped projects with clients: translated business needs into technical solutions.
- Responsible for cloud infrastructure and service availability.
- Evolution and reliability of payment systems, including a high-traffic API used by large accounts and public bodies, integrated with acquiring networks and local banks.

DEC 2020 – SEP 2023 (APPRENTICESHIP)

eDevice, Bordeaux
IoT Developer / Tester

Test automation for electronic boards and web applications for a patient hub connected to medical sensors. Final-year project: a web application for generating test scripts.

APR 2019 – JUN 2019 (INTERNSHIP)

ECS Digital, London
Fullstack Developer

Team development, from scratch, of an internal peer-review application, in an English-speaking DevOps environment.

JUN 2018 – JUL 2018 (SUMMER JOB)

Yansys, Vichy
Mobile Developer

iOS port of a patient-doctor messaging app, in an agile team.

EDUCATION

2020-2023 **Engineering school (apprenticeship)**
IT and networks
INP Enseeiht, Toulouse

2022 **Master's in Computer Science and Networking**
UNIVERSITY EXCHANGE SEMESTER
Universidad Complutense de Madrid

2017-2019 **DUT in Computer Science**
VALEDICTORIAN
University Diploma of Technology
IUT Clermont Auvergne

2017 **Scientific Baccalaureate**
HIGHEST HONORS
Engineering Sciences, European English
Lycée Albert Londres, Cusset

LANGUAGES AND TECHNOLOGIES

AI	Claude Code, ChatGPT
LANGUAGES	C#, JavaScript, HTML, CSS, Python Java, Swift
FRAMEWORKS	.NET, Node.js, Angular, React, Cordova, Flask
DATABASES	MySQL, SQL Server, MongoDB
TOOLS	Git, Azure DevOps, JIRA, Office Suite, VS Code, Visual Studio, Android Studio
INFRA	AWS, pfSense, Windows Server, Cloudflare, XenServer, Docker
OS	Windows, MacOS, Ubuntu

NOTABLE SKILLS

Team management

Team coordination and communication, providing technical expertise to support developers and ensure continuous delivery.

Technical rigor

Adherence to best practices throughout the development cycle: Git and branch-based version control, Agile methodology, design patterns, rigorous documentation and testing.

Responsible use of AI

Thoughtful integration of AI into development to multiply productivity by eliminating tedious manual tasks.

Communication

Native French, English B2, Spanish C1, Arabic B1. International experience.
